

Air 1 radio station is an asset to the community of Riverside because it provides the only Christian music that attracts the attention of young people with a possitive message. Lives have been changed by the influence that Air 1 has had on its listening audience. If Air 1 could not function properly, I would, along with countless others, loose a very valuable and necessary commodity that is utilized daily. Please be informed that Air 1 is worthy of monetary and utilitary consideration and assistance upon the behalf of many Riverside residents.
